EASA Form 1 - Issue 2 (*) Installer must cross-check eligibility with applicable technical data

USER / INSTALLER RESPONSIBILITIES

This certificate does not automatically constitute authority to install.
 When the user/installer performs work in accordance with regulations of an airworthiness authority different than the airworthiness authority specified in block 1, it is essential that the user/installer ensures that the work is performed in accordance with the airworthiness authority specified in block 1.
 Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulation. The user/installer before the aircraft may be flown.
