Chandler, AZ 85286-2403

P70R625Y

5. Work Order/ Contract or Invoice Number: 009977701

6. Item:	7. Description:	8. Part Number:	9. Quantity:	10. Serial Number:	11. Status/Work:
01	MAIN AIRCRAFT BATTERY	2758	1	201602245	OVERHAULED

12. Remarks: THIS UNIT WAS DISASSEMBLED, CLEANED, INSPECTED, REPAIRED, REASSEMBLED AND TESTED. UNIT HAS BEEN RETURNED TO SERVICE IN OVERHAULED CONDITION IN ACCORDANCE WITH SAFT C.M.M. 24-38-51 REV 04 / 08APR2013. T.S.O. 0.00

Certifies that the work specified in block 11/12 was carried out in accordance with EASA Part 145 and in respect to that work the component is considered ready for release to service under EASA Part 145 approval number EASA 145-6133

13a. Certifies the items identified above were manufactured in conformance:

Approved design data and in a condition safe for operation.

Approved design data certified in accordance with EASA Part 145.

14a. 14 CFR 43.9 Return to Service Other regulation specified in block 12

Certifies that unless otherwise specified in block 12, the work identified in block 11 and described in block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.

13b. Authorized Signatory: [Signature]

13c. Organization No.: [Redacted]

13d. Name (Typed or Printed): [Redacted]

14b. Authorized Signatory: [Signature]

14c. Name (Typed or Printed): JORDAN JESKA

14d. Date (dd/mm/yyyy): 28JUN2018

14e. Approval/Certificate Number: P70R625Y

User / Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Signatures in Block 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
