### EASA FORM 1 - Issue 2 USER/INSTALLER RESPONSIBILITIES

Note: This certificate does not automatically constitute authority to install the items.

Where the user/installer performs work in accordance with regulations of an aeronautical authority different from the aeronautical authority specified in block 1, it is essential that the user/installer ensures that the aeronautical authority accepts items from the aeronautical authority specified in block 1.

Statements in blocks 13a and 14a do not constitute installation certificates. In all cases aircraft maintenance records must contain an installation certificate issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
