EASA FORM 1 - Issued by the European Commission  
USER/INSTALLER RESPONSIBILITIES

Note: This certificate does not constitute an approval to install (see item 1).

When the user/installer performs work in accordance with regulations of an authority other than the authority specified in block 1, it is essential that the user/installer ensures that the work is performed in accordance with the applicable regulations of that authority. The user/installer must ensure that the work is performed in accordance with the applicable regulations of that authority.

Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

AUTHORIZED RELEASE CERTIFICATE / AIRWORTHINESS APPROVAL TAG

USER / INSTALLER RESPONSIBILITIES

1) It is important to understand that the existence of this document alone does not automatically constitute authority to issue the performance certificate.  
2) Where the user/installer works in accordance with the national regulations of an Airworthiness Authority (other than the Airworthiness Authority of the country specified in block 1), it is essential that the user/installer ensures that their Airworthiness Authority accepts parts/compliance certificates from the Airworthiness Authority of the country specified in block 1.  
3) Statement 14 and 15 do not constitute installation certification. In all cases, the aircraft maintenance record must contain an installation certification issued in accordance with the national regulation by the user/installer before the aircraft may so fly.
