TASK PERFORMED IN ACCORDANCE WITH CMM 21-25-00
REV. 3

Return to Service in Accordance with 14 CFR part 43
The work identified in block 11 and described herein has been accomplished in accordance with 14 CFR part 43 and in respect to that work the items are approved for return to service under
FAA Certificate No. DLA7225D

13a. Certifies that the items identified above were manufactured in accordance with the following:

approved design data and are in a condition for safe operation

non-approved design data specified in block 12

Further details of work performed are attached either in a Workshop Report (reference number: see blocks 9 and 5) or in other applicable documents.

Other Regulation specified in block 12

14a. Part-145 A.50 Release to Service
Certifies that unless otherwise specified in block 12, the work identified in block 11 and described in block 12, was accomplished in accordance with Part-145 and in respect to that work the items are considered ready for release to service.

EASA FORM 1 - USER RESPONSIBILITIES
US EASA FORM 1 - USER RESPONSIBILITIES

Note: This certificate does not automatically constitute authority to install the item(s).

The user/installer performs work in accordance with regulations of an airworthiness authority different from the airworthiness authority specified in block 1. It is essential that the user/installer ensures that his/her airworthiness authority accepts items from the airworthiness authority specified in block 1.

Statements in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

AUTHORIZED RELEASE CERTIFICATE / AIRWORTHINESS APPROVAL TAG

USER / INSTALLER RESPONSIBILITIES

- It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.
- Where the user/installer works in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in block 1 it is essential that the user/installer ensures that his/her Airworthiness Authority accepts part/component/assemblies from the Airworthiness Authority of the country specified in block 1.
- Statement 14 and 15 do not constitute installation certification. In all cases the aircraft maintenance record must contain an installation certification issued in accordance with the national regulation by the user/installer before the aircraft may be flown.
