USER/INSTALLER RESPONSIBILITIES

This certificate does not and should not constitute authority to install the item(s).  
 Verify that the work is done in accordance with the regulations of an airworthiness authority different than the airworthiness authority specified in block 1. It is essential that the user/installer ensures that his/her airworthiness authority accepts the work.  
 States in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be released to service.
