 Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, Part 43 and in respect to that work, the items are approved for return to service.

13b. Authorized Signature: _____ 13c. Approval Authorization No.: _____

14b. Authorized Signature: *Todd Smith* 14c. Approval/Certificate No.: **QACR366X**

13d. Name (Typed or Printed): _____ 14d. Name (Typed or Printed): **Todd Smith**

13e. Date (dd/mm/yyyy): _____ 14e. Date (dd/mm/yyyy): **20-Jun-2019**

User/Installer Responsibilities

It is the responsibility of the user/installer to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. When the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1. Statement in Blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
