USER/INSTALLER RESPONSIBILITIES

Note: This certificate is not automatically validly constitute authority to install the item(s).
Where the user/installer performs his work in accordance with regulations of an airworthiness authority different from the airworthiness authority specified in block 1, it is essential that the user/installer ensures that the work is accepted by the airworthiness authority specified in block 1.
Signatures in blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

AUTHORIZED RELEASE CERTIFICATE / AIRWORTHINESS APPROVAL TAG
USER / INSTALLER RESPONSIBILITIES
1) It is important to understand that the existence of this document alone does not automatically constitute authority to install the parts specified in block 11. It is essential that the user/installer works in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in block 11. It is essential that the user/installer ensures that his/her Airworthiness Authority accepts parts/components/assemblies from the Airworthiness Authority of the country specified in block 11.
2) Where the installation certificate is issued in accordance with the national regulations of an Airworthiness Authority, in all cases the aircraft maintenance record must contain an installation certification issued in accordance with the national regulation by the user/installer before the aircraft may be flown.
