 N/A

Certifies that the work specified in blocks 11/11 was carried out in accordance with EASA Part-145, and in respect to that work, the component is considered ready for use in service under EASA Part 145 Approval Number EASA.145.6295

<input type="checkbox"/> Approved design data and drawings. Responsibility for approval of design data and drawings is the responsibility of the design authority. <input type="checkbox"/> Not approved design data and drawings. This block is for use when the design authority is not approved.	<input checked="" type="checkbox"/> 14a. Return to Service <input checked="" type="checkbox"/> Other regulation specified in Block 12.	14b. Authorized Signature: 14c. Approval/Certificate No.: 681R700B
14d. Name (Typed or Printed) Agustin "Gus" Garcia	14e. Date (dd/mm/yyyy) 20/Nov/2017	

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that higher airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statements in Block 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
